

SIZE GUIDE – FIND YOUR SIZE

We have many sizes to choose from. Our trousers are sized in inches, not centilong. This is because we offer several fits for each size to help you find the perfect fit. Check your measurements to ensure you get the maximum satisfaction from your garments. It's simple.

When choosing sweaters and jackets, check the size of garments you already have that fit you well. Then compare them to our tables to find your size.

How to measure your trouser size.

1 Waist measurement

Using a tape measure, take your waist measurement at the height where you usually wear your jeans. Before taking the measurement, think about the type of jeans you typically wear. If they are low-waisted, measure lower down. If they are high-waisted, measure higher up. If you tend to wear your jeans at hip height, measure there. This gives you your torso measurement.

2 Length measurement

Always take the measurement on the inside part of the leg. The easiest way is to measure a pair of trousers that fit you well. Measure from the crotch down to the bottom of the leg.

Alternatively, if you already have jeans that fit you well, you can check what size they are. The jeans size is made up of two different measurements in inches. For example, the size might be 30/32. The first number is the waist measurement and the second number is the length of the jeans.

Measurement table – garments

Size	Women	Men	Shirts	Sweaters	Hats	Gloves
XXS						
XS	32	44	35-36	3	53-54	6
S	34-36	46-48	37-38	4	55-56	7
M	38	48-50	39-40	5	57-58	8
L	40	52-54	41-42	6	59-60	9
XL	42	56-58	43-44	7	61-62	10
XXL	44	60-62	45-46	8	63-64	11

CARE INSTRUCTIONS

All Texstar clothes are carefully tested and easy to care for. Follow the washing instructions to maximise the garment's lifespan while caring for the environment:

- ✳ Always sort clothing according to temperature and colour. Garments marked "Wash with similar colours" may run during washing and stain other clothing. This problem usually disappears after a few washes.
- ✳ Coloured garments should always be washed at the highest recommended temperature for each garment.
- ✳ To protect zips, close them before washing.
- ✳ It is usually unnecessary to include a pre-wash in the washing cycle. Treat stubborn stains with stain remover before washing.
- ✳ Coloured clothing should be washed with special detergent for coloured fabrics to prevent fading.
- ✳ Dose the detergent according to the package instructions and your water hardness. Your local council can usually provide information on the water hardness in your area.
- ✳ Avoid detergents containing the bleaching agents sodium hypochlorite, sodium perborate or sodium percarbonate.
- ✳ Also check that your detergent is appropriate for the temperature you are washing at.
- ✳ Do not use fabric conditions.
- ✳ Most clothes benefit from being hung up to dry. Always shake and stretch them out before hanging. This is particularly important for knitted materials.
- ✳ If you choose to tumble dry clothing, stop before it is completely dry to prevent unnecessary shrinkage and wear.
